Our IT Support Services

Since 2004, Naglotech has helped small and mid-sized businesses across the South East stay connected, secure and ready for anything.

When it comes to IT support, here's why Naglotech leads the way:

- ✓ **24/7/365 Proactive Remote Monitoring**
We can detect and address any issues before they impact your business, minimising downtime.
- ✓ **Real Support From Real People**
No jargon, no queues, and no confusion. Just fast, friendly help from people who understand your business.
- ✓ **Flexible Plans**
From simple remote support to fully managed services - you can choose what fits you best.
- ✓ **Everything You Need Under One Roof**
Microsoft 365, cybersecurity, backups, on-site support. Whatever you need, we've got it.

IT SOLUTIONS FOR BUSINESS

Cybersecurity and Compliance

In an era where cyberattacks are increasingly targeting small and medium sized businesses, Cyber Essentials is a UK Government-backed scheme designed to help organisations defend against the most common threats. Naglotech can help your business achieve Cyber Essentials compliance with confidence.

We partner with industry leaders like Microsoft, Huntress, Acronis and AvePoint to bring you a robust suite of cyber security solutions.

From advanced threat detection and response, to secure backup and data recovery, our services are designed to reduce your risk and keep your business cyber resilient.

Website Design, Hosting and Maintenance

Our web design and development team can provide you with a fully responsive, brand driven and customer focused website.

What makes Naglotech the right choice for your website design and maintenance?

We believe in building long-term relationships with our customers, offering the kind of personalised service that big agencies just can't match. From the initial concept to post-launch support, we're with you every step of the way.

At the heart of it all is a simple belief: your success is our success. We treat your goals as our own and work hard to help you achieve them. With Naglotech, you won't just be getting a new website, you'll gain a trusted digital partner.

Cloud Services

In today's fast-moving digital world, the Cloud isn't just an option, it's now the backbone of smart business.

As a Microsoft-certified partner, we're trusted experts at guiding businesses through smooth transitions to Microsoft 365 - whether you're running private, public or hybrid cloud environments.

Where Naglotech really shines is in the transition process. We start by understanding your current infrastructure and put together a migration plan tailored to your business goals. Our technical team will handle all the heavy lifting: migrating emails, securing your data and configuring accounts, all while minimising disruption to your day-to-day operations.

Datacentre and Colocation Services

Datacentres serve as the foundation of modern IT infrastructure, supporting critical applications and storing essential data.

Naglotech's datacentre facilities are ISO-accredited across diverse locations in the UK. Our range spans from half racks to full racks, cages, and private suites, managing reliable, secure and resilient environments for your server hardware.

Our facilities will provide your businesses with a secure, high-performance environment for hosting applications, websites and critical data. Our datacentres are built with redundant power supplies, high-speed connectivity, advanced security systems and climate-controlled environments to ensure optimal performance and maximum uptime.

Our Hardware Services

At Naglotech, we specialise in sourcing and supplying hardware from trusted vendors such as HP, Lenovo, and Dell.

Whether you're expanding your team or refreshing your in-house devices, we can provide reliable, scalable solutions tailored to your needs.

Our long-standing vendor partnerships mean we can offer competitive pricing, fast lead times and expert guidance on the right hardware for your environment.

Every unit is delivered fully configured, tested and ready to integrate into your setup with minimal disruption. Backed by over 20 years of experience, Naglotech ensures your hardware investments are future-ready and supported every step of the way.
